

KUNAL RAJ SHAH

FRONTEND DEVELOPER

Kathmandu, Nepal | +977 9811724567 | kunalshah1172@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Frontend developer with a solid foundation in HTML, CSS, and JavaScript, now building full-stack applications with React.js, TypeScript, and Next.js — including AI-powered apps with authentication, databases, and third-party API integrations. Recent work includes SarokarAi, a trilingual AI guide for Nepali government services, and a clinic booking platform backed by Supabase and PostgreSQL. I'm looking for an internship or junior role where I can contribute my skills, learn from an experienced team, and keep growing as a developer.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Next.js, TypeScript, Tailwind CSS, Responsive Web Design

Tools & Platforms: Vite, React Router, Git & GitHub, Figma, REST APIs, Supabase, PostgreSQL, Prisma, NextAuth, Playwright

Also exposed to: PHP, MySQL

Languages: English, Nepali

PROJECTS

SarokarAi

Sep 2026

Next.js, React 19, TypeScript, Tailwind CSS, RSS, Vitest [Live demo](#) | [GitHub](#)

- Built a trilingual (Nepali, Roman Nepali, English) AI guide covering 50+ government services — citizenship, passports, PAN, driving licences — with steps, documents, and fees cross-referenced across 12 departments.
- Added “K Cha Ta?”, a Nepali news engine (RSS from 11 publishers, trending-story scoring, cached AI summaries), backed by streaming AI responses with multi-provider failover, rate limiting, and abuse protection.

Swastha Nepal Clinic

Jul 2026

React.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Playwright [Live demo](#) | [GitHub](#)

- Built a complete appointment booking flow — service and doctor selection, date/time slots, and confirmation — with database-level checks preventing double-bookings.
- Added a role-based staff admin dashboard (owner, receptionist, doctor, viewer) secured with Supabase Row Level Security, plus a read-only sample dashboard; tested end-to-end in real browsers with Playwright.

HR Admin Dashboard

Jul 2026

React.js, Tailwind CSS, React Router, Vite [GitHub](#)

- Built a multi-page dashboard with React Router — summary cards, activity feed, and department charts; employee directory with search, department filters, and detail modals.
- Added onboarding tracking with progress bars and interactive checklists, plus leave management with approve/reject actions — all with reusable components and custom hooks.

Personal Portfolio

2026

Next.js 16, React 19, TypeScript, Tailwind CSS [Live demo](#) | [GitHub](#)

- Designed and built a modern portfolio with Next.js 16 (App Router, Server Components, generated OG images) and self-hosted fonts, showcasing selected work, services, and contact sections with auto-deploy to Vercel.

Hotel Management System

Jan–Mar 2026

PHP, MySQL, JavaScript, HTML, CSS [GitHub](#)

- Built room, reservation, and customer-record management with a front-desk interface, including room availability checks and booking status tracking.
- Wrote the entire UI in custom CSS from scratch (no frameworks), with a clean modular PHP structure running on XAMPP.

TRAINING & EDUCATION

KODERS — 30-Day Summer Bootcamp in Web Development (2026)

Completed an intensive, project-based bootcamp with daily hands-on builds, strengthening debugging and learning-by-doing. [View certificate](#)

Bachelor of Computer Applications (BCA)

2023–2027

Nepal Mega College, Tribhuvan University — Kathmandu (expected 2027)

+2 Management

2019–2021

World Vision School, Rajbiraj, Saptari

School Leaving Certificate (SLC)

2019

Durga Secondary School, Rajbiraj, Saptari
